SPONG & CO.'S IMPROVED COFFEE MILLS

Or for Grinding Pepper, Spices, Rice, &c.

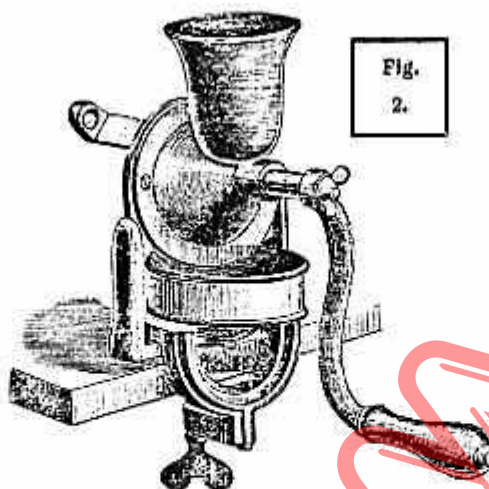

THESE MILLS ARE LARGE IN SIZE AND OF STRONG MAKE.

FOR FAMILY AND HOTEL USE.

Can be fixed in an instant to the dresser or table with a cramp, or if desired, screwed to the wall.

They do not require a screw-driver to regulate their grinding fine or coarse, as this is done by pulling a little Handle up or down at the back of the Mill.

The cutting surfaces do not touch each other, thereby ensuring Durability.

This Mincer is adjustable, and will cut coarse or fine at pleasure, and is the best Mincer for Suet Chopping.

For the past 26 YEARS we have been making Mincing Machines (five different kinds), having sold over 200,000 of our Original Mincers in twenty years, therefore we ought to know exactly what is required of a Mincing Machine. A Machine is wanted that shall CUT or CHOP the meat or suet into SEPARATE PIECES without being mashed, and also will make SAUSAGES and cut up VEGETABLES, &c. After spending a great deal of time, thought and money, we have invented an entirely New Machine, which will accomplish all the above better than any other machine in the market; in fact, they will cut meat and suet into SEPARATE PIECES, make SAUSAGES, and cut up VEGETABLES by the aid of ONE Machine alone.

TESTIMONIAL.

FARNHAM, 1886.

Gentlemen,—Kindly forward at earliest, one of your Two-Roller Mincing Machines, No. 8, £2 2s., the same as the others I have had. This is the fourth one I have had, and they answer every purpose.

(Signed) A. FROST.

ONE OF THE ROLLERS.
